

QUALITY POLICY

Hydraquip Inc. is committed to being the leading solutions provider in the fluid power industry. To accomplish this aim, Hydraquip Inc. will establish, implement, and maintain a documented quality management system. This system will direct our efforts to ensure that our products and services will conform to our customers' requirements and reflect current ISO 9001 standards. The attainment of the quality objectives is designed to increase customer satisfaction and continually improve the Hydraquip Inc. Quality Management System.
