

ROUTE TO SUCCESS

Derek Sherwood
Mechanical Engineer

Design, assembly and delivery of diverse projects in marine, offshore and military industries.

Hands-on experience with liftboat and coast gaurd projects including calculations and onsite fabrication.

**MECHANICAL
ENGINEER**

INTERN

“Working at SIT has been one of the best things because I’m able to learn something new every day. We get projects that have never been done before and get to see it through the whole way from the design to the assembly to the delivery. Not one day is ever the same.” – Derek Sherwood
