

Your Company. Your News.

2021 Bring Your Child To Work Day

This year we welcomed over 30 children to our EOH facilities for our 3rd annual Bring Your Child to Work Day! Children were able to shadow their parents and also learn what it's like to work at our employee-owned companies.

This day consisted of many fun educational activities and games such as building hydraulic bridges, treehouse buildings, playing hydraulic Jeopardy and completing scavenger hunts, to name a few of these. These children were also able to witness a real-life working environment, touring different stations in our warehouse facility. With the help of our employees, the kids saw real demonstrations of hose crimping, forklifts and much more.

It is always such a joy to host our employees' families. We enjoy helping our children learn what it means to be a part of our company culture and look forward to seeing them again next year!

OVERVIEW

- Bring Your Child to Work Day
- Campus Ambassador Program
- Upcoming 2021 FUEL Events
- Who's Who Winners
- Sales Recognition

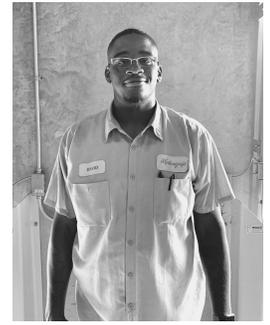

Campus Ambassador Program

Our employee-owned company is proud to recruit talented and driven interns. The Campus Ambassador program allows our interns to get real hands-on experiences in our industries. This summer, we had a total of nine interns working across our five companies: ECI, EOH, GCC, HYD & SIT. The interns were all able to present their summer projects to top management at our corporate headquarters in Houston, Texas. Each of them brought a fresh perspective while sharing their meaningful work experience, and we are thankful for the hard work they have contributed to our company!
