 - Future opportunity for multiple shipset

SIT

Oil and Gas Company Project - Retrofit Project for 4 Rigs:

- Chris Sarro
- \$750K Confirmed
 - \$1M to \$1.5M estimated for 2021

Subsea Tieback Tradeshow Recap

SIT had a successful year attending the 2020 Subsea Tieback Forum & Exhibition walking away with 25 quality leads. Our very own Jacob Shoemith participated in the Student Design Competition at the tradeshow. The challenge was to integrate a new subsea system into an existing, lower pressure tieback. Their solution involved the use of HIPPS systems to reduce the new reservoir's pressure from 15K PSI to meet the 10K PSI rating of the existing reservoir's equipment. Thanks for representing SIT, Jacob! And congratulations on the quality leads obtained!

Elite Controls Team Growth

Elite Controls, Inc. has taken a big step forward in talent development with the recent hiring of four new employees. We are excited to introduce the new team members:

Jay Seay - Operations Director

Dustin Osborn - Automation & Controls Sales Manager

Natasha Omeara - Client Service Representative

Kelsea Flewellen - Controls Engineer

We really look forward to the expansion of business keyed by the addition of these talented individuals.

Employee Spotlight

Bethany Dupuis - Supreme Integrated Technology

Bethany Dupuis is our Contracts Fulfillment Manager for SIT in New Orleans.

Bethany truly enjoys all aspects of her job; from the work she completes daily, to the people she works besides with.

In her free time, she enjoys traveling, shopping, music festivals, summer pool days and cheering on the Saints.

Retirement Announcement

GCC CEO, John Flieman, III, announces his retirement for April. We

are beyond thankful for his 34 years of service.

COVID-19 PRECAUTIONS

- ✓ Work remotely when possible.
- ✓ Frequently wash your hands properly with soap and water.
- ✓ Avoid touching your eyes, nose, or mouth with unwashed hands.
- ✓ Limit close contact with people who are sick.
